

MONIKA VERMA

JAVA DEVELOPER/ MEAN STACK DEVELOPER

monika8427084@gmail.com | +91842704107 | Ludhiana punjab India

LeetCode | **Linkedin** | **HackerRank** | **GitHub** | **Blog**

EDUCATION

Guru Nanak Dev Engineering College

B.Tech Information technology

CGPA: 9.04

Ludhiana, Punjab india

2020 - 2024

EXPERIENCE

IBM(Allsoft solutions) | Web developer(Traning)

Chandigarh | 17july2022 - 17August2022

SKILLS

Programming Languages: C++, JAVA, JS

Libraries/Frameworks: Codeigniter, MEAN stack

Tools / Platforms: <https://auth.geeksforgeeks.org/user/verma2001/practice>

Databases: MYSQL, MongoDB

PROJECTS / OPEN-SOURCE

Inventory management WEB APPLICATION | Link *HTML, CSS, CODEIGNITER, BOOTSTRAP*

Features: login, register, Stock management

Inventory management can result in cost savings. By having better control over stock levels, businesses can reduce storage costs, minimize the risk of theft or damage, and avoid unnecessary ordering or rush shipping expenses. It also helps prevent over-ordering, which ties up capital in excess inventory.

By leveraging the benefits of inventory management, businesses can achieve greater operational efficiency, cost savings, improved customer satisfaction, and ultimately, sustainable growth in their industry.

Chatroom WEB APPLICATION | Link

HTML, CSS, JS, BOOTSTRAP

In this project you can chat with your friends relatives anonymously.

Anonymous chatrooms allow users to engage in conversations without revealing their personal information or identity. This provides a sense of privacy and protection, which can encourage open and honest communication. Users can freely express themselves, share their thoughts, and discuss sensitive topics without fear of judgment or consequences.

APPLICATION- CONFESSION ROOMS

MENTORING SYSTEM APPLICATION | Link

BASIC JAVA, AWT, SWING, MYSQL

in this project mentor can manage their student details and make crud operations

Networking App:HOD-Mentor network | Link

MongoDB, Express, Node, Angular

Mentoring app have the potential to be valuable tools for facilitating meaningful connections, increasing access to mentors,HOD and expertise, improving efficiency, promoting accountability, and supporting learning and personal growth. By providing a platform for mentor-HOD relationships, this apps can create opportunities for social and economic mobility and enhance the skills and knowledge of individuals and communities.
